Dr. Sekar Ayu Pratiwi

Associate Professor · Marine Ecology

sekar.pratiwi@email.com · +62 813 5550 4271 · Makassar, Indonesia · ORCID 0000-0002-5550-1847

EXPERIENCE

2023 – Present — **Universitas Hasanuddin**
Associate Professor, Department of Marine Science · Makassar

- Head the Coral Reef Ecology Lab: 14 graduate students across 22 survey sites.
- Teach Reef Ecology and Biostatistics to 160 students a year; 40 theses supervised.

2014 – 2023 — **Universitas Hasanuddin**
Lecturer (Assistant Professor) · Makassar

EDUCATION

2016 – 2020 — **James Cook University**
Marine Biology · Doctor of Philosophy · Townsville, Australia
Thesis: Thermal tolerance of inshore corals under chronic sedimentation.

2011 – 2013 — **IPB University**
Marine Science · Master of Science · Bogor · GPA 3.86
Thesis: Hard-coral recruitment on artificial reefs in the Thousand Islands.

2006 – 2010 — **Universitas Hasanuddin**
Marine Science · Bachelor of Marine Science · Makassar · GPA 3.71
Thesis: Reef fish communities around Barrang Lompo Island.

PUBLICATIONS

2025 — 1. **Sediment load predicts bleaching severity on inshore Spermonde reefs**
Journal of Tropical Reef Science 14(2)
With R. Hakim, D. Lestari and J. Morgan

2024 — 2. **Community-run photo transects for low-cost reef monitoring**
Coastal Ecosystems Review 9

2022 — 3. **Thermal tolerance of Porites lutea across a turbidity gradient**
Indo-Pacific Marine Ecology 31(4)

2022 — 4. **Reef fish recovery after the 2020 heatwave in Southeast Sulawesi**
Jurnal Ilmu Kelautan Wallacea 7(1)
With R. Hakim (lead author) and B. Siregar

2020 — 5. **Turbid refuges: inshore corals under chronic sedimentation**
Journal of Tropical Reef Science 10(3)

GRANTS

2023 – 2026 — Reef Resilience in a Warming Sulawesi (PI)
Nusantara Marine Research Fund · Rp 1.2 billion

2021 – 2023 — Fishers as Reef Monitors (PI)
Yayasan Sains Pesisir · Rp 450 million
