SUMMARY

Engineering manager who started as an intern writing SQL reports and grew through backend, platform and team leadership. I lead two squads building the ordering and payout systems behind 48,000 farmers, and I care about calm releases, clear ownership and engineers who keep growing.

EXPERIENCE

Tanibumi — Bandung
Engineering Manager — Jan 2023 – Present
- Lead 14 engineers in two squads owning farmer ordering and payouts.
- Raised deploys from once a week to 30 a week while cutting the change failure rate from 14% to 4%.
- Hired nine engineers and promoted four; one-year retention at 93%.

Tanibumi — Bandung
Senior Software Engineer — Mar 2021 – Dec 2022
- Rebuilt farmer payouts in Go with idempotent jobs; failed transfers dropped from 2.1% to 0.2%.
- Moved 22 services from a single VM to Kubernetes with zero downtime.

Pustaka Digital Nusantara — Bandung
Senior Software Engineer — Jul 2018 – Feb 2021
- Owned e-book search over 2 million titles; p95 latency from 900 to 120 ms.
- Split a monolith into five services; three teams now release independently.
- Mentored six junior engineers and started the team's written design reviews.

Gerbang Data Indonesia — Bandung
Software Engineer — Aug 2015 – Jun 2018
- Built Java and PostgreSQL APIs for school-admission systems in 11 cities.
- Wrote the team's first automated tests, with 70% coverage on core modules.

Gerbang Data Indonesia — Bandung
Software Engineering Intern — Jan 2015 – Jul 2015
- Automated 12 monthly SQL reports, saving analysts two days a month.

EDUCATION

Institut Teknologi Bandung — Master of Engineering · GPA 3.81
Informatics (part-time) — Bandung · 2019 – 2021

Institut Teknologi Bandung — Bachelor of Engineering · GPA 3.58
Informatics — Bandung · 2011 – 2015

VOLUNTEER

Perempuan Koding Bandung — 2019 – Present
Bandung
Volunteer mentor; helped 40 career-switching women land first engineering jobs.
