Summary

Fresh Information Systems graduate looking for a first role as a data or business analyst. Two internships taught me to clean messy data, build dashboards people actually open and explain the numbers to non-technical teams. Quick learner, comfortable with SQL, Python and Power BI.

Education

Institut Teknologi Sepuluh Nopember — Bachelor of Computer Science • GPA 3.68 / 4.00
Information Systems — Surabaya • Aug 2022 – Aug 2026
Thesis: forecasting weekly demand for 1,200 grocery items with gradient boosting, 14% more accurate than the store's moving average.

Experience

Pasar Raya Daring — Surabaya (hybrid)
Data Analyst Intern — Feb 2026 – Jul 2026

- Built a Power BI dashboard on seller performance for 3,400 merchants, now reviewed weekly by the category team.
- Wrote SQL checks that caught duplicate orders worth IDR 180 million in one quarter.
- Presented monthly insights to the category lead; two of my recommendations went into the Q3 promo plan.

PT Samudra Logistik Timur — Surabaya
Business Analyst Intern — Jul 2025 – Sep 2025

- Mapped the warehouse returns process with 12 staff interviews; the new flow cut handling time by 20%.
- Wrote the user requirements for a returns tracking form that IT built in the next sprint.

Projects

Sales dashboard for small shops — 2025
Google Sheets and Looker Studio dashboard for 15 food stalls in a campus community programme.

Public transport ridership analysis — 2024
Python analysis of 2 million open-data trips; placed 2nd of 48 teams in a campus data competition.

Campus Organisation

Himpunan Mahasiswa Sistem Informasi — 2023 – 2024
Surabaya
Head of Research & Data: ran a student survey of 900 respondents and a free SQL class for 120 juniors.

Certifications

Google Data Analytics Professional Certificate — 2025
Google

Power BI Data Analyst Associate — 2026
Microsoft
