Bima Aditya Nugroho

Senior UX Researcher · Product Design

SUMMARY

UX researcher and product designer with eight years in consumer and agricultural apps. I plan research that answers product questions, run it in the field with farmers, traders and riders, and turn what we learn into flows the team can ship the same quarter.

EXPERIENCE

Lumbung Tani — Bandung
Senior UX Researcher — May 2022 – Present

- Lead research for the farmer and buyer apps (450,000 monthly users); run 60+ field interviews and usability sessions a year.
- Redesigned crop listing for low-literacy users with voice and photo input; completed listings rose by 38%.
- Built a research repository of 300 tagged insights, now the first stop for every product brief.

Studio Garis — Bandung
Product Designer — Feb 2019 – Apr 2022

- Designed web and mobile products for 14 clients in retail, health and education, from discovery to handoff.
- Created the studio's design system in Figma, cutting the time to a first prototype from three weeks to eight days.

Kopi Kode — Bandung
UI/UX Designer — Aug 2017 – Jan 2019

- Designed the ordering app for a chain of 40 coffee shops; app orders grew to 30% of sales.
- Ran the company's first usability tests with 20 baristas and regular customers.

PROJECTS

Rider safety study — 2023
Diary study with 24 delivery riders over four weeks; led to a fatigue alert now on by default.

Market price checker — 2021
Self-initiated case study: a price tool for traditional market traders, tested in three Bandung markets.

EDUCATION

Institut Teknologi Bandung
Visual Communication Design
Bachelor of Design • GPA 3.58
Bandung • 2013 – 2017
