Michael Rumengan

Cloud Solutions Architect · Data Platform & BI

michael.rumengan@email.com +62 811 5559 3174 Jakarta, Indonesia

SUMMARY

Cloud and data architect who moves regulated financial workloads to the cloud without failing an audit. Thirteen years in banking and insurance, the last four leading the data platform and BI for a group of four insurers. I design for cost, security and OJK compliance first, then make the data easy for 2,000 business users to trust.

EXPERIENCE

Lindung Sejahtera Financial Group Jakarta
Head of Data Platform & BI Mar 2022 – Present

- Lead 16 data engineers and BI developers serving four life and general insurers with 3.2 million policyholders.
- Moved 140 TB from on-premise Oracle and Teradata to a lakehouse on Azure; infrastructure costs fell by 38%.
- Replaced 900 spreadsheet reports with 60 governed Power BI dashboards; month-end close went from nine days to four.

Lindung Sejahtera Financial Group Jakarta
Cloud Solutions Architect Jan 2019 – Feb 2022

- Designed the group's landing zone on Azure and AWS; passed OJK and ISO 27001 audits with no major findings.
- Led the migration of 41 claims and policy applications, with 99.95% uptime after cut-over.
- Introduced FinOps tagging and budgets that saved IDR 7.2 billion in cloud spend in two years.

Bank Tirta Harapan Jakarta
Senior BI Developer Jul 2013 – Dec 2018

- Built the bank's first enterprise data warehouse for 1.8 million retail customers, feeding 120 regulatory and management reports.
- Automated monthly OJK reporting; preparation time fell from six days to one.
